# FOLK FESTIVITIES

Interested in recreating those good old days where the whole family gathered together to celebrate the holidays? For all who love a bit of nostalgia, we present: Folk Festivities.

Enjoy the memory of chirping birds in the forests while chasing down a Christmas tree. As the family arrives with their car full of presents, it is time to hide from the cold and rush inside. As the children play with their toys, the grown-ups enjoy fresh baked gingerbread and good old-fashioned home-made hot chocolate.

**Materials:** forest finds, jute, lumber wood, dried spices & cookies.

# SCANDI NAVI AN DREAMS

Nothing is more magical than glistening snow falling down from the sky. As it catches the light you can see the reflection of many soft colours. Specially for all who can't wait for snow to fall, we present: Scandinavian Dreams.

Step into a dream as you surround yourself with pretty pastels and wondrous whites. The light woods and minty scents immediately transport you to snowy Scandinavian hills. The only hard part is you'll never want to wake up!

**Materials: ceramics, paper & Scandinavian woods.**

# MARTINIS & MISTLETOE

Specially for all who are not shy of a party or two, we present: Martinis & Mistletoe. Delve yourself in a world of glamour and enjoy the rich bold colours and glimmering gold. Embrace the elegant details of sparkling embellishments and the soft touch of velvet fabrics. You can almost hear sweeping jazz music coming from the instruments in the trees. With this festive mood your guests will surely be entertained.

**Materials: velvets, metals, sparkles & glitter.**

When we undertake a Christmas project, the creativity of our teams come into play from design to installation. They all work together to make your venue look as festive as possible! And it's *fun!*

The proof is in our previous work and our *happy* clients.
